# CARRIERS - DEPARTTURES RANGE

Double handles for easier maneuvering. The handles have been manufactured using 'gas assist' injection technology which makes them especially strong while offering a finish that feel very smooth and 'soft'. Baking finished and punched metal grills for the side ventilation slots. A very eye-catching and modern solution which is absolutely unique in the market. Four way locking doors to resist accidental opening and tampering. Also the door is taller which allows for easier access for the pet and greater ventilation. Corner reinforcing for increased strength and rigidity as well as providing a more masculine appearance. Large feeder with rim to prevent from spilling. (\* Optional metal grill)
